## **Bird Observers Outings for 2013**

**21<sup>st</sup> April 2013; meet at 7am**

### **Maroochy River Conservation Park**

I had been hoping that the wet weather would ease off and that would permit us to explore this park more extensively. This has not occurred; a large area which includes the walking tracks remains under water so I have changed my plans for the morning.

Please meet at the walking track along the Bill Kear Waterway on Ocean Drive. There is adequate parking along the roadway.

Bring a chair, morning tea, sturdy footwear, [the path is dry], sunscreen, hat. There were no mosquitoes when I checked on Friday, but this could change!

- From the Bli Bli Market Place head east on David Low Way, or from the Sunshine Motorway take the Marcoola / Twin Waters exit onto David Low Way eastbound.
- From David Low Way take the Twin Waters exit right into Ocean Drive, after about 2k and immediately after passing the Nojoor Road intersection, cross the bridge and park on roadside.

The Maroochy River Conservation Park covers approximately 174ha. It includes Mudjimba Island. Most of the park is low lying with elevations at less than 0.5metres above sea level increasing to just over 0.5metres above sea level. It comprises relatively young marine and freshwater sands and silts.

---

**14<sup>th</sup>, 15<sup>th</sup>, 16th June**

### **Mini extended outing**

This will be to the Crow's Nest area, staying at the Crow's Nest Tourist Park, New England Highway, Crows Nest. This is a rural setting on the southern approach to the town. There are a range of accommodation options from camping, grassed and slab caravan sites, to ensuite cabins. Alternative accommodation is available across the road at the Crows Nest Motel.

Please make your own bookings direct with your chosen venue.

For further information please contact me.

**Detailed information will be sent to all contacts prior to each outing.**

Contact: Judith on 5441 2838 evenings, please leave a message if no answer, she will return your call when able.
